

Where AI Belongs by Sales Motion

A 1–page matrix every CRO should build before the team reinvents the wheel.

01

AI Preps. Human Owns.

Pre-meeting research, account briefs, proposal drafts, call summaries. The rep still owns every customer-facing moment.

02

AI Accelerates. Human Approves.

Outbound drafts, multithreading suggestions, deal-risk flags, renewal motions. Rep approves before send.

03

AI Executes. Human Reviews.

Outreach, lead routing, follow-ups, renewal prompts. Human reviews weekly, not per-touch.
